Work Experience

Jobs

Partsworker Auto Indumij Oosterhout

October 2016 – April 2018 | 25 hours a week

I worked here 25 to 45 hours a week, depending how much work there was. In the mornings, I sorted the parts that came in last night. Those that went to other garages and dealers were then loaded in the van and brought to them by me. When I return from that, I ensured the parts for the mechanics were ready for the next day, and managed all tyres at the warehouse. I ensured we knew where all tyres were, what tyres the customers drove on, if we had summer or winter tyres in storage for those who wanted us to store their tyres. In addition, I ensured that the parts that were not needed, parts that were wrong and parts for warranties were sent back in time.

Driver perishable goods Kreko

April 2015 – October 2016 | 40 hours a week

I brought the vegetables, fruits, potatoes, meat and fish to restaurants, bars and parks. After bringing the products to them, I was expected to work in the grocery department of the wholesale.

Order picker Kreko

Februari 2011 – March 2015 | 8 hours a week

Here I worked 8 to 40 hours a week, depending on what my studies allowed. My job was to prepare food and package materials for transport to the restaurants. In addition, during October, November and December, I was expected when my studies allowed, to help prepare the Christmas parcels for several companies that ordered them from us. Every Saturday I also had to bring vegetables, meat and fish to restaurants.

Internship Chemical Laboratory Shell

Februari 2014 – September 2014 | 40 hours a week

Here I worked on my internship for a chemical analyst. I did research to find a new gas chromatograph column that would last longer than the current columns and set up an analysis method with this column. This was in addition to the work to analyse the samples we got from the plants.

Internship Chemical Laboratory Avans Hogeschool Breda

Februari 2013 – November 2013 | 40 hours a week

This was my first internship as a chemical analyst. Here they expected me to fully focus on Gel Permeation Chromatography (GPC). Maintenance, tutoring of students, writing a manual, and using the GPC for my own research was important for this. My research was trying to find a sped up degradation method for polymers.

Cabdriver Taxi Goverde

April 2010 – January 2011 | 8 hours a week

During the weekends, I had to pick up and bring the customers to their locations. This could vary from 8 hours to 16 hours a week.

Order picker Kreko

October 2008 – April 2010 | 3 hours a week

My job was to prepare food and package materials for transport to the restaurants.

Side Activities

Author/Blogger Enomview

December 2017 – Currently doing

For Enomview I write about speedrunning and indie games. My focus was speedrun tournaments, but we are planning to start a monthly series about speedruns and indie games.

Training and Education

Education

Chemics (hbo) Avans hogeschool

September 2009 – July 2015 | Diploma: No

havo profile Nature and Technique Markland College

September 2007 – July 2009 | Diploma: Yes

havo profile Nature and Health Markland College

September 2007 – July 2009 | Diploma: Yes

vwo Markland College

September 2003 – August 2007 | Diploma: N/A

Training

Webdesign Codecademy

July 2018

Did this training to refresh my mind about webdesign and to help a friend of mine to set up a website. The website was made for a minecraft server, I claim no credit for the forums. You can visit the site here for reference:

<http://theforgottendistrict.com/>

Javascript Codecademy

May 2018 - July 2018

Javascript ES6 training with JQuery and node-SQLite so that I could make programs with nodeJS. This was done under my online name Aureus Lunae. Recently they added 2 more parts to their basic javascript course, so those were completed recently. The training I've completed on codecademy can be viewed here: <https://www.codecademy.com/AureusLunae>

With javascript, tmi.js and nodeJS, I've made a twitchbot. You can review the code of the twitchbot on github (<https://github.com/Aureus-Lunae/lunaebot>).

VCA Basic

May 2014

This details basic safety measures for companies.

Full Cab Driver card

May 2010

This is required to be allowed to work as a cab driver in the Netherlands.

Skills, competences and interests

Languages

Dutch: Mother language.

English: Speaking skills are decent, writing are good.

Driving Licences

AM B

Competences

Making rapports

This was an important aspect of my education

Learning

I pick things up quickly.

Logical thinking

Working according rules This was also an important aspect of my education. If you could not work according the rules, you were a danger in the laboratory.

Customer-oriented

Interests

Reading

I enjoy to read anything, as long as it has a good story.

Speedrunning

To complete computer games as fast as possible.

Geocaching

Trying to find geocaches with the help of a GPS on my phone.

Poetry

I write poems in the modern format.
